Please find below and/or attached an Office communication concerning this application or proceeding.

Non-Responsive Amendment

In the present response, the Applicant had amended the claims to thereby overcome the restriction requirement. This action is deemed improper since, under 35 CFR 1.142, a response to a restriction requirement must include an election of group of claims to be prosecuted with or without traverse. Thus, the Applicant's response is said to be non-responsive. To this end, the Applicant is herein required to elect a group of claims, as featured in the last action (without the present claim amendments), to be examined on the merits. Finally, since the Applicant's response, under 1.111, is a bona fide response, the Applicant is given one month to respond to this correspondence.
